

OEM Chemicals in a National Brand

PRODUCT INFORMATION

Lubricants

Chain Lube

(Non-Chlorinated)

FEATURES & BENEFITS

Chain Lube is a high-performance lubricant blend for use on all exposed roller chains to provide lubrication and corrosion protection, as well as good penetration to points of contact.

- excellent extreme pressure, anti-wear, and anti-rust properties
- superior surface adhesion to resist water washout and mechanical displacement

Non-chlorinated carrier solvent to enhance environment preservation.

OEM-APPROVED SERVICE CHEMICAL.

DIRECTIONS FOR USE

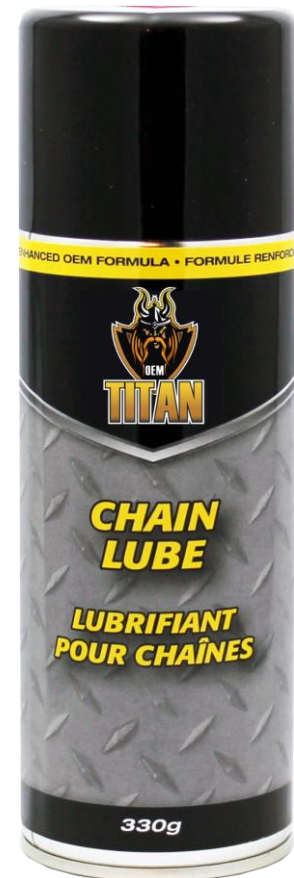

Shake very well before using. Apply a bead of Chain Lube along the length of chain on the roller surfaces. Rotate chain sprockets to ensure full coverage and penetration.

PRECAUTIONS

REFER TO SAFETY DATA SHEET FOR PRECAUTIONS IN HANDLING.

AVAILABLE PACKAGE SIZES

TNDS8048 330g aerosol

Noise, vibration and excessive wear will all result from poor chain lubrication. Roller drive chains are commonly exposed to the elements and must endure moisture, dirt and grime, extremes of temperature and high loads.
