PRODUCT INFORMATION

Cleaners

Heavy Duty Degreaser

FEATURES & BENEFITS

Heavy Duty Degreaser is a solvent-based product, formulated for superior grease-cutting performance. Spray-on and hose-off treatment results in better engine heat dissipation. A clean engine and engine compartment improve vehicle appearance and help retain vehicle value. HD Degreaser can also be used for industrial applications as well as around the home and shop to clean any metal surface, heavy machinery, steel, lawn and garden equipment, marine engines and equipment, as well as cement garage floors.

DIRECTIONS FOR USE

Spray product liberally and directly onto surfaces to be cleaned. Allow product to soak into grime for 5 to 10 minutes. Hose off with a strong spray of water. **DO NOT USE A PRESSURE WASHER.** For engine cleaning, product works best with engine warm, but not hot. For heavily caked-on grime, scrape excess off first before applying product. Cover electrical components, carburetors and TBI units before using product to prevent contamination by the product or the water used to rinse off the loosened grime and cleaner residue.

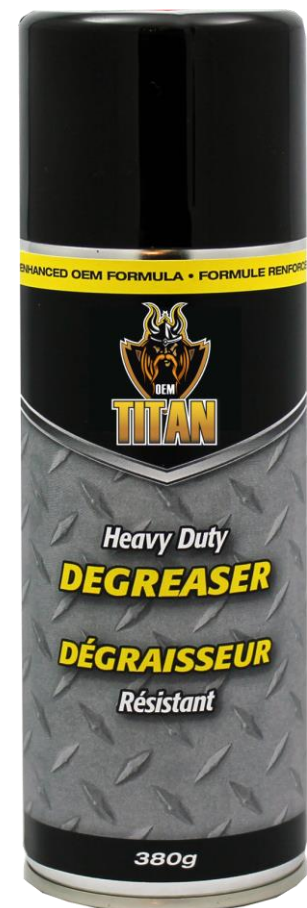

PRECAUTIONS

REFER TO SAFETY DATA SHEET FOR PRECAUTIONS IN HANDLING.

AVAILABLE PACKAGE SIZES

TNDS8008 380g aerosol

TNDS8208 18.9L pail

A noticeable increase in engine operating temperature, coupled with odours of engine oil and grease. This is caused by excessive build-up of oil, grease, dirt and grime on the engine and throughout the engine compartment. Grime creates an unsightly appearance of the engine and engine compartment.
